THE MATCH GAME

THAT FAST-MOVING, EASY TO LEARN, TV GAME FOR 3 TO 7 PLAYERS

This home edition of THE MATCH GAME can be played two ways .... "TEAMS" for 6 or 7 players .... "SINGLES" for 3 to 6 players. A wonderful family game, all ages enjoy it .... Also adaptable to large or small groups.

TO PLAY THE GAME: A question with many possible answers is read from a card. Players write down the answer most likely to be given by the other players; because points are scored only when two or more answers match.

IMPLEMENTS: Over 550 different questions on CARDS. Each CARD has six questions, three on a side. Bend the cards on the perforated lines before breaking them apart.

The PLASTIC SCORE PEG BOARD and colored PEGS are used for TEAM play. The CHIPS are used for playing the SINGLES game.

There are six vinyl SCRIBBLE BOARDS which are easily torn apart at the joints between each inserted card. If a card has slipped forward, push it back into its pocket.

The covered tray contains 6 special SCRIBBLE Crayons and a generous supply of WIPE-OFF Papers.

THE "TEAM" GAME FOR 6 OR 7 PLAYERS, AS SEEN ON T.V.

1. There are two teams of 3 players and an MC (Master of Ceremonies). If there are only 6 players, one of the team members also acts as MC. He gives each player a vinyl Scribble Board, a Crayon and a piece of the Wipe-Off Paper. He also shuffles the Questions Cards and keeps score, using the Scoreboard and Pegs.

2. The players sit as Teams, 3 on a side, placed so that they cannot see what their team mates are writing.

THE OBJECT OF THE GAME is to be the first team to score 100 points. Points are scored when players write answers that match their team mates.

3. When all are ready, the MC takes the top card from the pack and reads a question from it. All 6 players SECRETLY (without talking) write down their individual answers on their Scribble Boards with the crayon.

4. As each player finishes writing, he turns his board over, and raises his hand to signal that he is ready. When all hands are up, the MC asks the players, by Teams, what they have written. Each, in turn, reads his answer and holds up his Scribble Board to show it.

5. SCORING in this home game is done similarly to the TV game, EXCEPT THAT THE POINTS SCORED ARE DIFFERENT.

6. If two members on a Team have ANSWERS THAT MATCH, their Team scores 10 POINTS. If all 3 members on a Team have MATCHING ANSWERS, their Team scores 20 POINTS. For example: The question is — "Name an animal that lives in a tree." The following examples show how this question might be answered:

a.

TEAM 1		TEAM 2	
John — Squirrel Mary — Monkey Dick — Sloth	No Score	Helen — Squirrel Jim — Squirrel Dorothy — Monkey	10 points scored

b.

TEAM 1		TEAM 2	
John — Squirrel Mary — Monkey Dick — Monkey	10 points scored	Helen — Squirrel Jim — Squirrel Dorothy — Squirrel	20 points scored

After each question is answered, the Scribble Board is wiped clean.

7. The MC, using a different color for each team, moves the PEGS along the holes in the SCOREBOARD adding the points as they are scored.

THE FIRST TEAM TO SCORE 100 POINTS (OR MORE) WINS THE GAME

If both Teams have a total of 90 and on a following question, one Team scores 10 points, making 100, and the other Team 20 points, making 110, the Team having 110 points Wins.

If both Teams total exactly 100 points (or more) on the same question, the game continues until the scores DIFFER. The Team then having the most points Wins.

THE SINGLES GAME FOR 3 TO 6 PLAYERS

1. Each player is given 35 units of CHIPS. The WHITE CHIPS count 1, the RED CHIPS count 5, the BLUE CHIPS count 10 units each. He also uses a SCRIBBLE BOARD and CRAYON.

THE OBJECT OF THIS GAME is to Win the most Chips by writing answers that match the majority of the other players.

2. One player reads a question. Everyone SECRETLY writes an answer on his SCRIBBLE BOARD and raises his hand when ready.

3. When all hands are up, they show their cards.

4. Only the MAJORITY of players whose answers MATCH collect one chip from each of the remaining players. (Except as in Example "d" below).

Read from "a" to "g" aloud to the players before starting a game!
In the following examples, only the words underlined collect chips.
With 6 players: The question is "Name a Flower."

a. 5 players answer "Rose", one player answers "Daisy". He pays 5 chips, one to each "Rose" player.

b. 4 players answer "Rose", 2 players answer "Daisy". These two "Daisy" players (even though they match) each pay 4 chips, one to each "Rose" player.

c. 3 players answer "Rose", 2 players answer "Daisy", one player answers "Lily". The two "Daisy" and the "Lily" player each pay 3 chips, one to each "Rose" player.

d. 2 players answer "Rose", 2 players answer "Daisy", one player answers "Lily", and one player answers "Violet". The "Lily" and "Violet" players each pay 4 chips, one to each "Rose" and "Daisy" player. This is the exception to the MAJORITY Rule.

e. 3 players answer "Rose", and 3 players answer "Daisy", this is a "Wash Out" — no one pays or collects.

f. 2 players answer "Rose", 2 players answer "Daisy" and 2 players answer "Lily", again no one pays or collects.

g. If all players' answers are different, no one pays or collects.

5. When one player runs out of chips the game ends. The players count their chips. The one with the most WINS THE GAME.

RULES GOVERNING THE PLAY OF BOTH GAMES

1. The QUESTIONS on the cards are in two forms.

   a. "Name a Flower" This question requires a variety of a flower for an answer, as Rose, Peony, Poppy, etc. Points are scored when the answers match.

   b. Fill in Blank, "BIG_____" This form requires one or more words to fill in the blank, as "BIG BOY", "BIG BUSINESS", "BIG HEARTED", etc. Points are scored when the words used to fill in the BLANK match.

2. A Player should have only ONE ANSWER on his SCRIBBLE BOARD.

3. Misspelling of matching words does not matter.

4. Different words that mean the same DO NOT MATCH. For example: "POTATOES and SPUDS" DO NOT MATCH.

5. Plurals or different forms of the same Word, however DO MATCH. For example: for card FILL IN BLANK " _____ CREAM." Answers, "WHIP, WHIPPING and WHIPPED" would MATCH.

6. If one or more players cannot think of an answer within a reasonable time, (about a minute), the MC says "Time's Up" and the players without answers, DO NOT MATCH anyone.

7. Answers need not necessarily be correct. If one player's answer is the same as another's, it is a match; i.e. when asked for the name of a Jazz composer—two or more players reply "Beethoven"—it is an acceptable match.

HOW TO MAKE THE MOST OF THE QUESTION CARDS

THE MATCH GAME can be played over and over again, by using the QUESTION CARDS as follows:

1. The MC should shuffle them well before each game.

2. He may read all questions on each card in rotation, or vary them by using 1 or 2 questions from a card.

3. If, after using a question a number of times, the players keep writing the same word for an answer, write this word on the line below that question. Now include this extra word with the question each time it is read. For example: If, after the question, "Name a Flower", everyone answers "Rose", write the word "Rose" on the dotted line below the question on that card. The question then becomes "Name a Flower other than a Rose", when it is used again. This greatly extends the use of the cards and makes the game a lot more interesting to play!

New editions of THE MATCH GAME, with all new questions will appear periodically. Watch for them.
